## DISCUSSION

The current Capital Improvement Program identifies construction of the Antelope Valley North-South Roadway K to Q Project to occur in fiscal 2009-2010. The identified funding sources for design and right-of-way acquisition for the project include Highway Allocation Funds (SO), Federal Aid - Urban Area Projects Funds (PC), requested Federal Aid - Other Funds (OF), and donated right-of-way funds (\$48,000) will be used towards the required match for federal funds received for this project.

This project will construct the new Antelope Valley North-South Roadway from 19<sup>th</sup> and "K" Street north to "Q" Street. The project will also include roadway reconstruction along "O" Street between 17<sup>th</sup> Street and 21<sup>st</sup> Street. The proposed schedule for the Antelope Valley Projects identifies construction work on this transportation project to start in the Fall of 2009 with completion of the work in December 2010. Construction work on the project will be phased along major arterial roadways including "O" Street, "K" Street, and "L" Street to minimize impacts to the traveling public as well as access to adjacent properties.
